DETAILED ACTION

Claim Rejections - 35 USC § 112

- The following is a quotation of the second paragraph of 35 U.S.C. 112:
 The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
- 2. Claims 1-4 recite the limitation "the assembly". There is insufficient antecedent basis for this limitation in the claim.

The function of the two-way truss rod assembly must be recited in the claims. The distinction between to two-way truss rood assembly and the strengthening beams must also be recited in the claims.

Allowable Subject Matter

- 3. Claims 1-4 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.
- 4. The following is a statement of reasons for the indication of allowable subject matter: The prior art does not disclose the specifics of the musical instrument neck for example: two separate strengthening beams adhesively secured.
